CONTINENTAL ABRASIVES,

A leader in the abrasives industry, the name recognized for quality and service is pleased to announce their return to the distribution of abrasives; same owner and same sales team.

Trusted by Generations...

The makers of Continental Abrasives have been providing high quality wheels to industry for several generations. Our experience and knowledge assures that we will continue to deliver world-class products to industry today and for generations to come.

Designed with the Professional in Mind...

At Continental Abrasives we know how hard you work and that your time is valuable. That is why we have created a product line that works as hard as you do. Day to day you can rely on our products to deliver consistent value and performance. We take pride in our products just as you take pride in your work.

World-Class Performance...

Our grinding wheels and abrasive cutting wheels are made from the best raw materials available. We use high quality virgin grain coupled with the highest quality resin and fiberglass available. Combining these high quality raw materials with our factory's many years of experience in manufacturing abrasives yield our world-class performance.

Best Value...

At Continental Abrasives we work hard to keep our manufacturing costs low. We ship large quantities of product to locations all over the world. All of our cost savings are passed on to our customers. This allows us to be a low cost provider of high quality products to the professionals.

Our Guarantee...

We stand behind everything we make and guarantee your satisfaction. **Use our abrasive products**; if you are not satisfied, return them. We are that confident you will be satisfied.

***Continental Abrasives is truly
a Global Abrasives Company.***

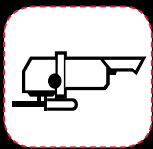

OUR SERVICES

- PROFESSIONAL SALES & CUSTOMER SERVICE TEAM
- BUSINESS FRIENDLY POLICIES
- ON SITE ABRASIVES EXPERT TO ANSWER YOUR QUESTIONS
- PRIVATE LABEL PROGRAMS
- SAME DAY SHIPPING
- PRODUCT SAMPLING & TESTING

OUR COMMITMENT & GUARANTEE

Quality, performance and price. **CONTINENTAL ABRASIVES** stands behind every product we sell. If you are not 100% satisfied, we will refund your money.

NEW PRODUCTS II

1-855-817-8390
www.continentalabrasives.com

Ulticut®

The **"ULTIMATE"** in Cutting and Grinding

Up to **DOUBLE** the life ratio
and # of cuts
Out performs Zirconia

Unrivaled Price/Performance Ratio

Unlike other pricey "high performance" cutting and grinding solutions available in the marketplace; the Ulticut® series of cutting and grinding wheels has been engineered to provide industry leading performance at a fraction of the price. Ulticut® achieves this distinction through a proprietary blend of thermosetting resin bonding technology and a unique engineered aluminum oxide grain that leaves the competition in its dust.

Shieldtech™ Grain

Ulticut's® Shieldtech™ aluminum oxide grain provides increased life, cooler cutting & grinding and a better finish than the other "high performance" product on the market. The Shieldtech™ armor increases the overall strength and hardness of the grains making them perfect for both non-ferrous and ferrous metal like stainless steel.

Contaminant Free

Ulticut® wheels are a contaminant free solution for your cutting and grinding needs.

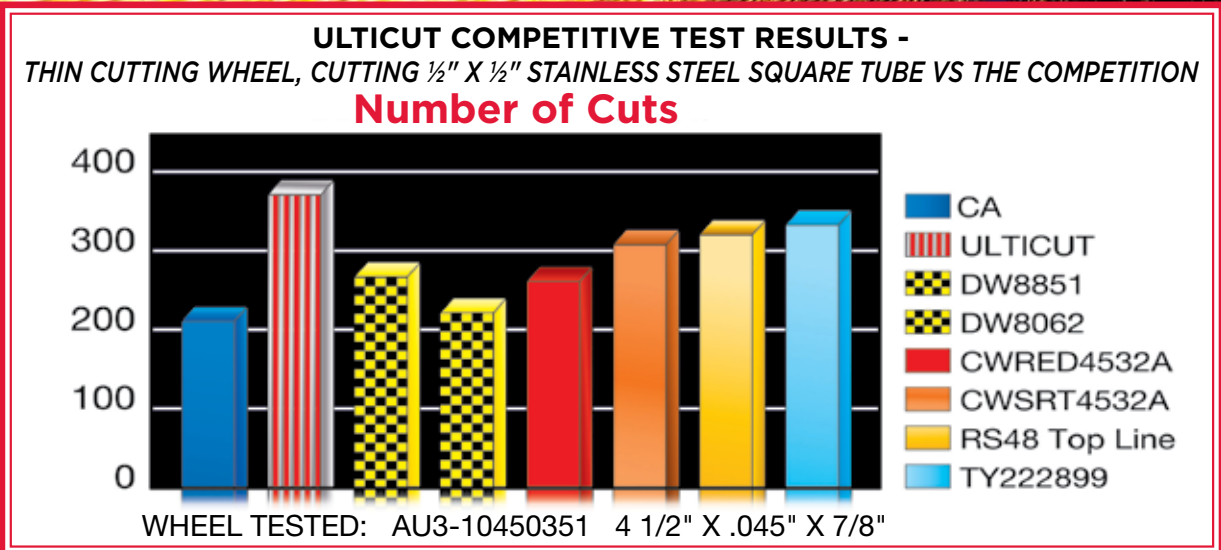

Ulticut® is truly an industry game changer!

FOR USE ON: Stainless steel, steel, iron, ferrous and non-ferrous metals and hard materials

CIRCULAR SAW & STATIONARY CUT-OFF WHEELS

II BONDED ABRASIVES II

Type 1
Portable handheld circular saw wheels double reinforced

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A0-10701171	7" x 1/8" x Dia-5/8"	8,730	25	100

APPLICATIONS

- All ferrous metals
- Steel
- Structural steel
- Rebar
- Bar stock

FEATURES

- Aluminum Oxide grain
- High strength phenolic resin bond
- Diamond knock outs
- ISO 9001 Certified - Red color code
- Double external reinforced with high tensile strength fiberglass

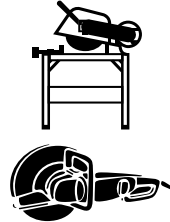

BENEFITS

- Extended wheel life
- Strong, durable long-lasting grain
- High strength for added safety
- Reliable consistency and performance

Type 1
Stationary saw & electric portable saw wheels double reinforced

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A1-11201191	12" x 1/8" x 1"	5,095	10	40
A1-11401191	14" x 1/8" x 1"	4,365	10	40

APPLICATIONS

- Steel
- Rebar
- Bar stock
- Structural steel
- All ferrous metals

FEATURES

- Aluminum Oxide grain
- High strength phenolic resin bond
- ISO 9001 Certified - Red color code
- Double external reinforced with high tensile strength fiberglass

BENEFITS

- Extended wheel life
- Strong, durable, long-lasting grain
- High strength for added safety

WARNING: Always use tools with guards & wear protective equipment.

LOW HORSEPOWER CHOP SAW WHEELS

Type 1
Low horsepower
chop saw wheels
center reinforced

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A1-11401091	14" x 7/64" x 1"	4,365	10	40

APPLICATIONS

- Steel
- Tubing
- All ferrous metals
- Structural shapes
- Small solid bar stock
- Light bar stock

FEATURES

- Aluminum Oxide grain
- High strength phenolic resin bond
- Center reinforced with high tensile strength fiberglass
- Formulated for low horsepower portable, electric chop saws
- ISO 9001 Certified - Red color code

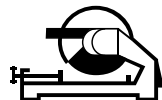

BENEFITS

- Extended wheel life
- Free and cool cutting
- Strong, durable long-lasting grain
- Less operator fatigue
- Less wear on chop saw

Type 1
Low horsepower
chop saw wheels
double reinforced

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A1-11400991	14" x 3/32" x 1"	4,365	10	50

APPLICATIONS

- Thin wall tube
- Steel studs
- Thin rebar
- Light-gauge metals

FEATURES

- Aluminum Oxide grain
- High strength phenolic resin bond
- Double external reinforced with high tensile strength fiberglass
- Formulated for low horsepower, portable, electric chop saws
- ISO 9001 Certified - Red color code

BENEFITS

- Extended wheel life
- High strength for added safety
- Less operator fatigue
- Less wear on chop saw
- Narrow kerf
- Strong, durable, long-lasting grain

WARNING: Always use tools with guards & wear protective equipment.

A7-31401291	14" x 1/8" (5/32") x 20mm	5,400	10	30

APPLICATIONS

METAL/STEEL

- Steel • Rebar • Structural steel
- Bar stock • Steel decking
- All ferrous metals

CONCRETE/ASPHALT

- Concrete
- Reinforced concrete • Stone
- Artificial stone • Asphalt
- Brick & Block • Tile

DUCTILE IRON

- Ductile iron • Cast iron

FEATURES

- 3 layers of high tensile strength fiberglass
- For use on high speed gas saws only
- ISO 9001 Certified — color coded for application

BENEFITS

- High strength for added safety
- Extended wheel life
- More rigid, less flexible
- Continuous sharp, aggressive cutting wheel edge

WARNING: Always use tools with guards & wear protective equipment.

A5-10901472	9" x 1/4" x 5/8"-11	6,600	10	40

APPLICATIONS

- All ferrous metals
- Steel/structural steel
- Rebar
- Welds
- Pipe
- Bar stock

FEATURES

- Aluminum Oxide grain
- Dual grit - Harder bond
- Available with 5/8"-11 threaded hub
- ISO 9001 Certified - Red color code
- Internally reinforced with layers of high tensile strength fiberglass

BENEFITS

- Aggressive material removal
- Strong, durable long-lasting grain
- Maximum safety
- Fast, easy spin on and off
- Longer life

WARNING: Always use tools with guards & wear protective equipment.

T-27 CUTTING & GRINDING WHEELS

II BONDED ABRASIVES II

Type 27
Depressed center grinding wheels cutting, notching, grinding metal pipe

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A6-10451152	4 1/2" x 1/8" x 7/8"	13,580	25	200
A6-10701152	7" x 1/8" x 7/8"	8,600	25	100

Type 27
Depressed center grinding wheels cutting, notching, grinding metal pipe 5/8"-11 flange

METAL/STEEL

PART NUMBER	SIZE	MAX RPM	BOX QUANTITY	CASE QUANTITY
A6-10451172	4 1/2" x 1/8" x 5/8"-11	13,580	10	80
A6-10701172	7" x 1/8" x 5/8"-11	8,600	10	40

APPLICATIONS

- All ferrous metals
- Steel / structural steel
- Rebar
- Pipe
- Welds
- Bar stock

FEATURES

- Single grit
- Available with 5/8"-11 threaded hub
- Aluminum Oxide grain
- ISO 9001 Certified - Red color code
- Internally reinforced with layers of high tensile strength fiberglass

BENEFITS

- Maximum safety
- Strong, durable, long-lasting grain
- High material removal with less loading
- Continuous sharp, aggressive grinding wheel edge

WARNING: Always use tools with guards & wear protective equipment.

APPLICATIONS

- Rust removal
- Light deburring
- Ferrous and non-ferrous metals
- Best for welds and blending
- All purpose sanding and grinding

FEATURES

- Heavy X-weight cloth
- Fiberglass backing
- Resin on resin bond
- With/without hub
- ISO 9001 Certified

BENEFITS

- Type 29 shape for maximum aggression
- High cut rate
- Fast and cool cutting
- Grind, blend, and finish in one easy step
- No need to switch from grinding wheel to resin fiber disc

WARNING: Always use tools with guards & wear protective equipment.

ALSO AVAILABLE: with 5/8"-11 Flange
(Contact your sales person for pricing.)

APPLICATIONS

- Stock removal
- Deburring
- Weld blending
- Edge chamfering
- Rust removal
- Cleaning & finishing
- Grinding

FEATURES

- Continuous self sharpening grain
- Cool grinding
- Grinding aids
- Contaminant free
- Fiber glass backing
- ISO 9001 Certified
- European nano ceramic infused
- Grain

BENEFITS

- Faster stock removal than A/O & Zirconia flap discs
- Does not stain or burn the material
- Resists loading & clogging
- Prevents SST from rusting

WARNING: Always use tools with guards & wear protective equipment.

(2" & 3" HOLDERS see page 35)

APPLICATIONS

- Tool & mould making, modeling
- Aerospace
- Tanks, pressure vessels & processing equipment (Ex: food processing, chemical industry)
- Blend, level & finish on contour or flat surfaces

FEATURES

- Type 3/Type R Fastener
- Quick tool free roll on / roll off
- Plastic button style

BENEFITS

- Quick tool free changes allow more grinding time
- Discs lock securely to holder pad & are easily removed
- Use on flat or contoured surfaces & hard to reach areas
- Compatible with 3M Roloc™ Holder/backup pads

WARNING: Always use tools with guards & wear protective equipment.

QUICK CHANGE SANDING DISCS

- Type 3/Type R

(Must be used with correct sized backing pad)

(BACKING PADS see page 35)

APPLICATIONS

- Metal
- Non-ferrous (copper, zinc, hard aluminum alloys)
- For all purpose weld grinding, blending, surface prep. Additionally used on metal, wood, fiberglass, FRP components, paint

FEATURES

- Tough A/O Grain

BENEFITS

- Economically priced
- Cost effective stock removal disc

WARNING: Always use tools with guards & wear protective equipment.

(Must be used with correct sized backing pad)

(BACKING PADS see page 35)

APPLICATIONS

- Higher performance grinding of stainless steel, tool steel and hard to grind materials
- Premium self-sharpening grain

FEATURES

- Zirconia grain

BENEFITS

- Fast aggressive stock removal
- Longer disc life

NEW RFD-70C120	7" x 7/8"	120	25	250

(Must be used with correct sized backing pad)

(BACKING PADS see page 35)

APPLICATIONS

- Excellent on tough, hard to grind materials

FEATURES

- High performance extremely durable ceramic grain
- Heavier fiber backing grinding aids

BENEFITS

- Very fast stock removal
- Longest life
- Improved finishes
- Greater durability & heat dissipation
- No stain or burn on SST, titanium & hard alloys, prevents loading

WARNING: Always use tools with guards & wear protective equipment.

NEW Q-PSTRIP30	3" x 1/2"	Type 3/Type R Quick Change Disc - Purple	10	500

APPLICATIONS

- Surface prep
- Rust removal
- Fiberglass
- Ferrous and non-ferrous applications
- Removes light edge burrs, parting lines or flashing ring
- Polishing and stripping of metal
- Stainless steel
- Grinding
- Paint

FEATURES

- Unique, semi-flexible open web design
- Runs quietly and safely
- Can be used on wheel face and edge
- Extra coarse abrasive uniformly distributed and bonded throughout the wheel

BENEFITS

- Conforms to edges, contours and uneven surfaces without gouging
- Resists loading
- Aggressive, free-cutting action for removing paint, rust, and coatings without smearing

WARNING: Always use tools with guards & wear protective equipment.
